this is the third in a series of catalogs and bibliographies of the cicadoidea covering 1981 2010 the work summarizes the cicada literature providing a means for easy access to information previously published on a particular species or to allow researchers the ability to locate similar work that has been published on other species a total of 2 591 references are included in the bibliography the book is a source of biological and systematic information that could be used by zoologists entomologists individuals interested in crop protection and students studying entomology as well as anyone interested in cicadas or who require specific information on the insects each genus species is identified with the reference the page number any figures if applicable the topics covered by the reference any synonymies and any biogeographic information mentioned for the species in the individual reference an added benefit to the catalog is that it is the first complete species list for the cicadoidea including all synonymies and new combinations through 2012 provides nearly four times the number of references of the previous catalog demonstrating the explosion of data since that time contains all references found that mention a genus or species name in the work includes more than 300 additional references that were not in the two previous works on this subject features the first complete species list for the cicadoidea including all synonymies

the global rise in pandemics most recently covid 19 and other health challenges some of which are due to climate change have imposed significant challenges on the healthcare systems in economies around the world thus this book deals with an issue that is very timely and relevant not just in africa but globally it critically assesses healthcare reforms in ghana under the fourth republic since 1993 although it focuses on ghana s national health

insurance scheme of 2003 the book instructively goes beyond this program the book argues that although ghana is a bellwether of healthcare reforms in africa its healthcare initiatives are still far from the service haven of healthcare as a human right themes that animate the book s argument include the need to translate human rights law such as the right to health into practical policies that work for ordinary citizens key highlights of the book include an increased accent on health as a human right emphasis on comparative analysis in healthcare studies and the formulation of a four hallmark framework embedded in economics law politics and human rights to act as a guide for assessment of healthcare reforms in africa in particular and ghana more specifically using ghana as a case study and analytical window into the world the book offers a valuable and timely resource for academics students and policymakers across the disciplines of development and healthcare economics law public policy political science sociology and african and caribbean studies as well as in various fields in health science

i really applaud your efforts it s really difficult to do a book like that wazirthanks again for your immense work my family and i are indeed extremely grateful azlanyour effort in writing about the early muslim doctors is very commendable and would be good for present and future generations to read about tahiryou are doing valuable work by filling in the gaps in our history iwish more of our retirees would impart their memories to repositoriesof knowledge such as the usm tawfik
